

ULTRA BLOOM[®]

Stabilized Rice Bran Supplement

Seminole Ultra Bloom[®] is a high-fat stabilized rice bran supplement for growing, breeding, show and performance horses. This calorie dense, extruded pellet with naturally occurring linoleic and linolenic fatty acids is ideal for body conditioning, bloom, weight gain and stallion performance. Ultra Bloom[®] has balanced levels of calcium and phosphorus and contains Gamma oryzanol. This extruded pellet form is highly palatable and can be top-dressed on feed.

- Stabilized form ensures high quality and extended shelf life
- Energy dense formula makes Ultra Bloom[®] an excellent way to add calories to the diet
- Naturally occurring linoleic and linolenic fatty acids ensure balanced omega-6 and omega-3 fatty acids
- Gamma oryzanol produces lean muscle mass
- Balanced calcium and phosphorus levels support optimal bone and hoof health
- Added Vitamin E protects against free radical damage

INGREDIENTS

Stabilized Rice Bran, Calcium Carbonate, Vitamin E Supplement.

Phosphorus (min)	1.50%	Vitamin E (min)	250 IU/lb

ULTRA BLOOM[®] Feeding Directions

Ultra Bloom[®] is a nutritional supplement for all classes of horses and it is ideal for coat & body conditioning, weight gain, muscle building and performance enhancement. Containing naturally high levels of vegetable fat, which has a greater calorie content than grain, Ultra Bloom[®] can replace a portion of grain in the horse's ration and reduce the chance of colic and other grain related problems associated with overfeeding starches in the diet. Feed the recommended amount according to the Daily Feeding Guide. During the period of introducing Ultra Bloom[®] to the feeding program, add it at the rate of 1/2 pound per horse per day and gradually increase the amount until the desired feeding rate is achieved.

DAILY FEEDING GUIDE	
Recommended Daily Feeding Rate in pounds per day.	
CLASS OF HORSE	ULTRA BLOOM[®]
Growing Horses	
Weanlings	1/2 pound
Yearlings	1 pound
2-3 Year Olds	1 pound
2-3 Year Olds in Training	2 pounds
Adult Horses	
Maintenance	1/2 pound
Light Work	1 pound
Moderate Work	1 1/2 pounds
Intense Work	2 pounds
Weight Gain	2 pounds
Breeding Horses	
Breeding Stallions	2 pounds
Gestating Mares	1 pound
Lactating Mares	2 pounds

NOTICE

Do not provide Ultra Bloom[®] on a free choice basis. Do not add corn oil or other fat supplements with this product to avoid possible digestive disturbances. Feed at regular times, with two or more feedings per day. Feed Ultra Bloom[®] along with a quality Seminole Horse Feed and Forage. Feed hay and/or equivalent pasture at the rate of 1 to 2 pounds per 100 pounds of body weight daily. Make all feed changes gradually, over a 7 - 10 day period. Delay feeding a horse that has just been exercised or is exhibiting pain, fever or diarrhea. Provide a free-choice horse mineral such as Seminole Grass Balancer 16:8 Mineral on a continuous basis. Provide clean, fresh water at all times. Store this product in a dry, well-ventilated area protected from insects and rodents. Do not feed moldy, insect infested or contaminated feed to horses as it may cause illness or death.

Seminole Feed[®] Quality Guarantee

If you're not satisfied, we're not satisfied. Should the quality of this product not meet your expectations, return it within 30 days with proof of purchase to your Seminole Feed[®] dealer for a complete refund or replacement.
